RECEIVED

MAR 24 1993

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Honorable Bud Shuster
House of Representatives
2188 Rayburn House Office Building
Washington, D.C. 20515

Dear Congressman Shuster:

This is in reply to your letter of February 24, 1993, in which you inquired on behalf of your constituent, Joseph F. Lamont, regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235, 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz.

Your constituent is specifically concerned about the impact of these changes on radio control (R/C) hobby users. Enclosed is a discussion paper concerning our proposals for the 72-76 MHz band. In short, we expect there would be no adverse impact on R/C operations because of any proposal contained in the Notice.

We are, of course, sensitive to the concerns of both users of private land

The Honorable Bud Shuster
U.S. House of Representatives
Washington, D.C. 20515

Dear Congressman Shuster,

I am writing today concerning PR Docket 92-235. I have enjoyed radio control models for nearly 40 years, most of my working life. Currently, I am in the process of retiring and am looking forward to this hobby being part of my retirement pleasure. We have a local club in Blair County, which I was president of for many years.

This club is very responsible in the use of remote controlled models, we have a park in Duncansville behind Warnaco. The models I build weigh as much as 14 pounds and operate at speeds up to 60 m.p.h. Since the proposed new frequencies are so close, interference will occur and render most model frequencies unusable, probably causing safety and liability problems.

I urgently request you vote against this Proposed Rule Making.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joseph F. Lamont".

Joseph F. Lamont
